RIVIO

by Gensler

Transition was the watchword for Gensler when designing RIVIO. Based on the transition from something lighter to something more solid, the flowing cutaways allow the thumb and fingers to engage in a uniquely comfortable way, affording a better grip and making opening and closing easier. Carved through the centre of its circular section, the handle continues its way back to the whole at a gentle incline. Ergonomic and elegant, it's offered in two variants, with either a curve or a 90-degree angle leading to the neck and rose.

Brand story

FORMANI has evolved considerably over the last few decades – from a Dutch family business to an internationally renowned designer brand, from door handles to total design concepts, from product development to collaborations with world-class designers. It was an evolution driven by pure ambition and courage. Our motto, ‘Obsessed with details’, epitomizes everything we do, from product to process, from strategy to service. Because it is these details that make the difference between good and perfect. At FORMANI, good is the enemy of great.
