Design philosophy: Balancing functionality, aesthetics and individuality.

Studio Piet Boon and FORMANI believe in the beauty of simplicity combined with quality and functionality. We share the vision that doorware is an essential part of any project and gives a first impression when entering a room. It's the first handshake with the building. The clean lines and geometric designs of the FORMANI by Piet Boon collections are pure, iconic, recognizable, and yet neutral. The models originated from the vision to explore a different design language, but one which is in harmony with the identity of Studio Piet Boon.

Brand story

FORMANI has evolved considerably over the last few decades – from a Dutch family business to an internationally renowned designer brand, from door handles to total design concepts, from product development to collaborations with world-class designers. It was an evolution driven by pure ambition and courage. Our motto, ‘Obsessed with details’, epitomizes everything we do, from product to process, from strategy to service. Because it is these details that make the difference between good and perfect. At FORMANI, good is the enemy of great.
